

Semester: 2026 Spring

Course: Ordinary Differential Equation.

Review:

1. You did great! :)
2. Magic tricks were awesome, really appreciated the printed solution sheets.
3. I like the chalk work and the instruction at the end for difficult topics. I like when you go around and ask if everyone is doing well with the problems.
4. Great recitation.
5. Thank you for the heartwarming emails and all the work do. Best TA!!
6. Very good TA work, I miss the card tricks.
7. I like the structure of the recitations. I liked being able to meet my classmates and I felted it help train my concepts. They reinforced my knowledge. Hong Sheng, you were awesome. Thank you for the great semester.
8. Recitation was usually good and prepares me for quizzes and exams.
9. You were so awesome. I enjoyed coming to class on Tuesdays. You made it a lot of fun and learned a lot.
10. The class was great. Great job as TA.
11. I liked it, enjoy the worksheet. Thanks for a great semester, Hong.
12. Good: Group work, magic tricks, lots of instructor help. Bad: N/A.
13. I liked working together on the boards :), Thank you!
14. You are doing a great job, just keep it up.
15. The recitation war very productive. I loved being able to work and collaborate with others in my class. Thanks for a great semester.

16. I loved the class and working in groups. I liked how the TA checked in to make sure everyone understand.
17. Everything was good. This was very helpful for this class.
18. Group work is good.
19. Good class and recitation, I liked the way it was taught and learned a lot, thanks!
20. I liked the group white board because it helped us ask question and we weren't alone for everything. Also it is obvious you really care and went out of your way to learn our name which is uncommon, thank you!
21. Very good recitation!!! Very helpful, thank you Hong Sheng!
22. I like working with new groups each week. It helps meet people and create study groups! However, I think you need weekly card trick.
23. I think overall the class was much better than Calc 3 and Calc 2. My only feedback would be maybe including more times for the course throughout the day.
24. Working in groups on the board forces me to put myself in front of the group and learn my weakness, this has been one of if not the only calculus class that ever done this and I believe it has really improved my grade.
25. I have no complaints, you were amazing! Thank you so much!
26. Hong Sheng, you held an amazing recitation this semester! Your method of encouraging students to work in groups on board proved to be very effective for my learning. I looked forward to coming to your class every week, especially when you did card tricks before class started. I really enjoyed my time in your class this semester! Thank you for your time.
27. I enjoyed this recitation! I liked working on the board in groups. You were very helpful and make sure everyone understood. Thank you so much, have a great summer.
28. I liked these recitations because working with other students on the board helped me understand the material better and kept me more engage with the class. Thank you for a great semester.

29. The whiteboard style was really helpful.
30. I really enjoyed this semester with you, you are a very good TA.
31. I liked working in groups on the chalk boards.
32. I thought this was the most organized calc class I took at MSU.
33. This has been one of my favourite math classes and recitations. Future student please do not put off learning concepts and keep up well with the webwork. I wish things in this class were more organized in D2L, especially when students are expected to learn.
34. Amazing TA, Tan Hong Shen is a teacher that goes above and beyond, great job!
35. The recitation were helpful! Any extra exam prep questions are good and the recitation leader was kind as well. I think weekly attendance isn't needed but the recitations before exams were incredibly helpful.
36. I likes working in group and the reviews were very helpful for me doing this course.
37. The recitations were super helpful. The group work is way better than working alone because it is easier to help one another, I learned a lot and was prepared for quizzes.
38. This is the best recitation instructor. He made an environment that encourages students to ask questions and really understand material. He is a very caring instructor and explain complicated material well. I look forward to recitations every week.
39. The recitation was great. I loved how he taught us.
